

Bulk Metallurgical Sampling; Skyfall and Stromberg Magnetic End Use and Heavy Rare Earth Prospects – October 2014

ASX:SPX

ABN: 94 115 770 226

27 APRIL 2016

SUMMARY OF ACTIVITIES

The March quarterly activities have been subdued due to the Northern Wet Season, limited funding and the relinquishment of most rare earth focussed properties held in the Northern Territory.

Current statutory reporting requirements have been completed and lodged.

When access is available, the Company will review and remediate past exploration activities to enable a refund of environmental bonds.

While the Company continues to be maintained on a minimum overhead basis, Directors are receptive to, and are investigating new opportunities that they feel have the potential to grow shareholder value from current levels.

PLANNED ACTIVITIES: NEXT QUARTER

The focus of activities for the Company in the June 2016 quarter will be a sale of surplus exploration equipment stored at Batchelor in the Northern Territory.

Additional reports will also be lodged with the NT Department of Mines and Energy.
